In order to work in Ireland a non-EEA National, unless they are exempted, must hold a valid employment permit. Please review the [Eligibility and requirements for an employment permit](#) if you are unsure of your eligibility to apply for this vacancy.

Job Description

Midland Engineering Ltd based in Templemichael Industrial Estate, Ballinalee Road, Longford, N39 C5Y9 are seeking to recruit experienced Welders to join our growing team.

Midland Engineering is dedicated to delivering a wide array of services designed to meet the needs of diverse industries. From stainless steel manufacturing to on-site services, our expertise ensures top-tier solutions for every client.

The ideal candidate will bring technical know-how and an innovative mindset to the role and help drive our industry-leading solutions.

Responsibilities of the job include -

- Interpretating blueprints and specifications accurately: Understanding our project requirements and materials to ensure proper welding methods are used.
- Operating welding equipment: Using tools such as arc welders, TIG welders, or MIG welders to join metals like steel, aluminium, and stainless steel.
- Inspecting welded surfaces: Ensuring the integrity and strength of welded joints by performing quality checks in line with industry standards.
- Performing maintenance: Repairing and maintaining welding equipment to ensure safety and efficiency.

Required Knowledge, Skills & Qualifications.

The ideal candidate will be a motivated, organised and skilled individual with attention to detail and a quality orientated mindset.

Knowledge of or previous experience within the Pharmaceutical and Food & Beverage industries would be beneficial, specifically relating to the supply of Stainless-Steel products.

Knowledge of metallurgy, various welding techniques, including TIG, MIG, arc, and oxy-fuel welding is required.

Technical Welding Qualifications would be an advantage.

•Hours of Work - 39 hours a week

•Annual Salary - €36,605
