Site Maintenance Planner

Application Details

In order to work in Ireland a non-EEA National, unless they are exempted, must hold a valid employment permit. Please review the [Eligibility and requirements for an employment permit](#) if you are unsure of your eligibility to apply for this vacancy.

Job Description

Site Maintenance Planner, for Anaerobic Digestion Plant Facility in Tibohine, Roscommon, Ireland

Biocore is a well-established and fast-growing company in the industrial renewable/process sector in Roscommon. This position is designed to strengthen the plant's maintenance strategy, contractor coordination, and operational monitoring. The company is currently undergoing significant growth, with plans to double the size of the site and bring several new plants online in the near future.

Key Responsibilities

Monitor plant performance via SCADA systems and proactively identify issues such as system faults, pressure anomalies, and equipment alerts.

Liaise with engine maintenance contractors for scheduled servicing, troubleshooting, and resolution of mechanical issues.

Develop and maintain the facility's preventative maintenance plan, including procedures, part replacements, and documentation.

Manage tracking and ordering of critical spare parts for mechanical plant systems (e.g., pumps, mixers, motors, valves).

Coordinate closely with internal operations staff to support daily plant performance and reliability.

Ensure procedures and contractor activities meet operational and safety standards.

Contribute to operational readiness and planning for upcoming site expansion.

Participate in a light on-call rota (1 week in every 4).

Candidate Profile

Engineering degree (mechanical/process/electrical) with 1+ year experience preferred

OR 5–6 years of experience as a technician in a process, utilities, or manufacturing environment

Strong working knowledge of plant equipment such as pumps, mixers, gearboxes, and associated mechanical systems

Experience with SCADA or process monitoring systems

Understanding of industrial engine/generator systems is an advantage

Proven ability to coordinate contractors, write procedures, and maintain maintenance schedules

Excellent communication and organisational skills

Comfortable working with Excel and basic maintenance tracking tools

Full driving licence

Biocore is an equal opportunity employer and values diversity in the workplace. All qualified applicants are encouraged to apply as we believe a diverse team enhances innovation and drives success.
