Job Description

Job Description & Skills Required

Drumderry are recruiting for Welders to join their team at their precast manufacturing facility in Drumderry, Bunclody, Co. Wexford.

The successful candidates will be responsible for carrying out high-quality welding and fabrication work on steel and metal components used in the manufacture of precast concrete products, while ensuring accuracy, quality and compliance with safety standards.

Main Responsibilities:

- Perform MIG/TIG/Arc welding on various metals, including steel, stainless steel and aluminium
- Assemble steel materials and components for the manufacture of precast concrete products
- Read and interpret technical drawings and specifications
- Fabricate and assemble metal structures and components
- Carry out repairs and maintenance of equipment and plant within the precast manufacturing facility
- Inspect completed work for quality and compliance
- Maintain welding equipment and follow all relevant safety procedures
- Work independently and as part of a team

Requirements:

- Minimum 2 years' relevant welding experience
- Competence in welding techniques
- Ability to read and understand engineering drawings and specifications
- Strong attention to detail and commitment to quality
- Ability to work independently and as part of a team

- Welding qualification desirable
- Safe Pass and Manual Handling certificates desirable
- Basic English language skills for communication and safety requirements

Normal Working Hours:

Monday to Thursday: 08:00 to 17:00

Friday: 08:00 to 16:00

- **Sector:** manufacturing
