Job Description

Scaffolder

Employer: Steve Moylan Ltd

Location: 03 Crushoa, Kinvara, Co. Galway, H91 Y3VR, Ireland

Contract: Full-time, Permanent

Hours: 39 hours per week

Salary: €36,605 per annum

Vacancies: 1

About the Employer

Steve Moylan Ltd is a construction company based in Kinvara, County Galway, Ireland, providing construction-related services. The company requires a reliable and experienced Scaffolder to support construction projects by erecting, modifying and dismantling scaffolding structures in accordance with project specifications and health and safety requirements.

We are seeking a suitably experienced Scaffolder to assist with providing safe and stable access for construction and maintenance work. The successful candidate will be responsible for ensuring that scaffolding is erected and dismantled correctly, inspected as required and maintained in a safe condition throughout the project.

Main Responsibilities:

Erect, modify and dismantle scaffolding structures in accordance with approved plans, specifications and site requirements.

Assemble scaffold frames, platforms, guardrails, toe boards, braces and access ladders as required.

Inspect scaffolding components before use to identify damaged, defective or unsuitable materials.

Ensure scaffolding structures are stable, properly secured and suitable for their intended use.

Install working platforms and access arrangements to provide safe access for construction workers.

Follow instructions from site supervisors and coordinate scaffolding activities with other construction

trades.

Load, unload, transport and organise scaffolding materials and equipment safely.

Carry out routine visual checks and report defects, damage or unsafe conditions to the appropriate supervisor.

Comply with Irish health and safety legislation, site-specific safety procedures and working-at-height requirements.

Maintain a clean and organised work area and use personal protective equipment correctly.

Candidate Profile

Minimum of two years' relevant experience working as a Scaffolder in construction or a similar environment.

Good knowledge of scaffolding erection, modification and dismantling procedures.

Understanding of scaffold stability, load limits, fall prevention and safe working-at-height practices.

Ability to identify defective scaffolding components and recognise potential site hazards.

Familiarity with construction tools, scaffolding equipment and appropriate personal protective equipment.

Ability to follow technical instructions, work effectively as part of a team and communicate with site supervisors.

Good attention to detail, reliability and a strong commitment to health and safety.

Physical fitness to handle scaffolding materials and perform manual tasks safely.

Relevant scaffolding training and safety certifications appropriate to the duties will be an advantage.
