Scaffolder^[SEP]

Application Details

In order to work in Ireland a non-EEA National, unless they are exempted, must hold a valid employment permit. Please review the [Eligibility and requirements for an employment permit](#) if you are unsure of your eligibility to apply for this vacancy.

Job Description

Job Purpose

The Scaffolder will be responsible for erecting, modifying, inspecting and dismantling scaffolding structures to provide safe access and working platforms for construction and maintenance activities. The role requires practical scaffolding experience, a strong understanding of working-at-height safety requirements, and the ability to work effectively as part of a construction team.

Key Duties and Responsibilities

Erect, alter and dismantle scaffolding structures in accordance with project requirements and safety standards.

Assemble scaffold components, including standards, ledgers, transoms, braces, boards, platforms and guardrails.

Prepare and position scaffolding equipment and materials before erection.

Interpret work instructions, site requirements and relevant drawings to determine appropriate scaffold configurations.

Ensure scaffolding structures are correctly secured, levelled, braced and stable.

Install safe working platforms, access points, ladders, guardrails and other required safety components.

Carry out checks on scaffolding structures and identify any defects, damage or potential safety concerns.

Modify existing scaffolding structures when required to accommodate different stages of construction or maintenance work.

Safely dismantle scaffolding and organise components for storage, transportation or reuse.

Work safely at height and use appropriate personal protective equipment and fall-protection systems.

Handle, lift and position scaffolding components safely using appropriate manual-handling techniques.

Follow site-specific risk assessments, method statements and health and safety procedures.

Maintain scaffolding equipment and report damaged or unsuitable components to the appropriate

supervisor.

Work closely with other scaffolders, supervisors and construction personnel to ensure scaffolding requirements are completed safely and efficiently.

Maintain a clean and safe working area and comply with all company and site health and safety requirements.

- Requirements

1 year of practical experience in scaffolding erection, alteration and dismantling.

Good understanding of scaffolding components and safe working practices.

Ability to follow instructions and work effectively as part of a team.

Valid Safe Pass certification.

Willingness to undertake additional training and obtain relevant Irish scaffolding certification where required.

- **Sector:** construction

Career Level

- Experienced [Non-Managerial]
