In order to work in Ireland a non-EEA National, unless they are exempted, must hold a valid employment permit. Please review the [Eligibility and requirements for an employment permit](#) if you are unsure of your eligibility to apply for this vacancy.

Job Description

Experienced welder required in pipe work who will be responsible for performing a variety of welding functions using steel (stainless and carbon).

Responsibilities include:

Read and interpret blueprints and/or drawings to determine the specific welding and fitting requirements.

Weld steel components based on the specifications of the blueprints and/or drawings using the following methods:

- Tig Welding
- Pipe Welding
- Mig Welding
- MMA Stick Welding

Cut and prepare material for fabricating based on the specifications of the blueprints and/or drawings.

Cut material to correct measurements.

Ensure work is done safely and meets quality standards.

Follow, create, and help maintain welding procedures.

Set up welding cells for production runs.

Operate machinery used in the production process or assist machine operators.

Assemble items as instructed by supervisor.

Work with team members to maximize productivity and efficiency.

Follow all safety rules and quality standards.
