Solar PV Quality Control & Technical Support Manager

Application Details

In order to work in Ireland a non-EEA National, unless they are exempted, must hold a valid employment permit. Please review the [Eligibility and requirements for an employment permit](#) if you are unsure of your eligibility to apply for this vacancy.

Job Description

Purpose of the role To ensure our solar PV, battery storage and associated equipment are installed, commissioned and handed over correctly, while resolving technical issues and preventing repeat faults.

Main Responsibilities

Quality Control

Fault finding and technical support

Installer training and improvement

Reporting and Accountability

Experience and skills required

- A recognised electrical qualification and strong practical experience with solar PV and battery storage.
- Proven ability to test, diagnose and resolve electrical and system faults safely.
- Experience commissioning inverters, batteries and monitoring equipment.
- Knowledge of relevant installation standards, electrical safety and solar grant requirements.
- Strong attention to detail and the confidence to challenge poor workmanship.
- Clear communication skills and a professional approach when dealing with customers.
- Ability to organise site visits, prioritise urgent issues and follow work through to completion.
- A full driving licence and willingness to travel to sites.

Experience with Solis inverters and batteries, Eddi, Harvi and EV charging equipment would be an advantage, as would previous experience supervising or training installers.
