Job Description

Company: Hayes Mechanical Engineering Ltd.

Location: Drumminoe West, Ballintubber, Claremorris, Co. Mayo, F12 E540

Employment Type: Full-time, Permanent

Working Hours: 39 hours per week

Annual Salary: €36,605

Weekly Salary: €703.94

Hourly Rate: €18.05

Proposed Starting Date: 13 November 2026

Sector: Construction

Career Level: Experienced (Non-Managerial)

Job Description

Hayes Mechanical Engineering Ltd., based in Drumminoe West, Ballintubber, Claremorris, Co. Mayo, is seeking experienced Pipe Fitters to join its team.

Key Responsibilities

- Assemble, install, repair and maintain pipe systems, drains, gutters, ducts and related fittings for water, gas, drainage, sewerage and HVAC systems.
- Examine blueprints and technical drawings to determine system layouts and the materials required.
- Measure, cut, thread, bend, join, assemble and install pipes, fittings and fixtures.
- Lay clay, concrete or cast-iron pipes in ditches to form sewers, drains or water mains.
- Inspect and test installed systems using pressure gauges, hydrostatic testing and visual inspection methods.
- Lay deep foul and surface water sewer pipes and construct foul and surface water manholes.
- Lay HDPE water mains and carry out water-main welding and testing.

- Operate soldering, welding and rigging equipment and use metal-bending techniques.
- Interpret pneumatic and hydraulic specifications for on-site installations.
- Follow health and safety procedures and ensure installations meet safety and production requirements.

Requirements

- Minimum of 2 years' experience as a Pipe Fitter or in a similar role.
- No formal qualifications are required; additional training will be provided on the job.
- Ability to read and interpret technical drawings and isometric perspectives.
- Knowledge of geometry, pipe measurements and pipeline installation techniques.
- Knowledge of health and safety hazards associated with underground work.
- Experience in laying deep foul and surface water sewer pipes and constructing manholes.
- Experience in laying HDPE water mains, including welding and testing.
- Ability to operate soldering, welding and rigging equipment and apply metal-bending techniques.
- Ability to assemble pipeline components, measure parts and identify flows in pipeline infrastructure.
