Job Description

Employer: CEL Critical Power Limited

Location: 4056 Kingswood Drive, Citywest Business Campus, Dublin 24, D24 TP08, Ireland

Employment Type: Full-time, Permanent

Hours of Work: 39 hours per week

Minimum Annual Remuneration: €50,000 – €60,000

Job Description

CEL Critical Power Limited is seeking qualified Electricians for the role of Switchgear Electrician to join our production team at our Citywest, Dublin facility. Reporting to a Production Supervisor, this role requires the assembly of electrical switchgear and associated equipment/systems to engineering drawings and production timescales, working to the highest levels of quality, environmental, health and safety standards.

Main Duties:

- Follow the Company's Quality Control, Environmental, Health and Safety Procedures
- Build LV electrical switchgear panels to approved schematic, mechanical and general assembly drawings
- Wire panels and components in accordance with schematic specifications
- Carry out assembly and sub-assembly of mechanical and electrical components
- Install and terminate cables in the correct manner in line with electrical standards
- Diagnose and rectify operational snags identified during pre-FAT testing, reporting any defective parts
- Prepare approved panels by leaving panel split lines in an organised manner for the site team to install
- Support the wrapping and preparation of finished products for shipment
- Mentor and develop team members
- Maintain area housekeeping standards to ensure a consistent and audit-ready state
- Assist in other departments as required daily
- Carry out any other duties within associated departments as requested by the Production

Supervisor

- Apply sound knowledge of engineering tools and electrical hand tools and equipment, including torquing

Requirements:

- Qualified Electrician
- Experience in manufacturing is essential, preferably within the LV switchgear industry
- Proven experience working on the assembly of both mechanical and electrical equipment
- Positive attitude, flexible working and able to work overtime as required
- Flexibility and adaptability to respond to a fast-moving business environment
- Excellent communication and interpersonal skills
- Excellent verbal and written communication skills
- Able to work independently and as part of a team
- Well-organised, self-motivated and able to multi-task
- Previous experience in site service work and familiarity with Risk Assessments and Method

Statements would be beneficial

What We Offer:

- Competitive salary - €50,000 – €60,000
- Full-time, permanent position Mon – Fri
- Opportunity to work on critical power infrastructure projects
